

HONEY ESSENCE

Cellular shades with a honeycomb structure

Illustrative product image supplied by FARZ

Design and comfort

The honeycomb structure supports thermal insulation and acoustic comfort. Light-filtering and blackout fabrics offer different levels of light and privacy. FARZ also lists UV protection among the product benefits. Suitable for homes, offices, hospitality and residential developments.

Hardware colours

White and Ivory

Dimensions

Maximum width: 2.80 m | Maximum height: 3.00 m

Minimum width: 0.50 m | Minimum height: 0.50 m

Fabrics

Light filtering: Magnolia Light Grey, Magnolia Ivory, Menara White

Blackout: Thuntex White, Thuntex Ivory, Thuntex Grey

Performance and final light gaps depend on fabric, fit and installation.

Confirm dimensions and available options with HB Blinds before ordering.
